

President's Letter

Welcome, friends, to the 39th Northern Michigan Antique-Flywheelers Tractor, Engine & Craft Show!

It is once again time to renew old friendships, make new ones, and celebrate our shared love of antique machinery and rural heritage.

As you spend the weekend with us, I encourage you to turn off your cell phone for a while and experience life in the "Past Lane"—a slower pace where history comes alive through the sights, sounds, and stories of days gone by.

This year's featured hand-start tractors and diesel stationary engines are on display thanks to families and collectors who have traveled many miles to share not only their treasured equipment, but the memories that go with it.

With so much to see, take your time and explore the entire showgrounds. From tractors and engines to crafts, demonstrations, food, and entertainment, there's truly something for everyone.

From our entire Flywheelers family, thank you for spending your weekend with us. We hope you have a safe, enjoyable visit and will join us again next year for our 40th Annual Show, July 22–25, 2027.

Happy Flywheeling!

Dave Korthase
President
Northern Michigan Antique-Flywheelers
